

Things to Consider

- Reducing and reusing C&D materials conserves landfill space, reduces the environmental impact of producing new materials, creates jobs, and can reduce overall building project expenses through avoided purchases and/or disposal costs.
- By identifying C&D materials as commodities that can be utilized in new building projects, thus avoiding the need to mine new material, the effort to reduce and recycle C&D materials effectively employs EPA's Sustainable Materials Management Approach.

CITY OF SIOUX FALLS
PUBLIC WORKS
Providing a Better Quality of Life for You!

Sioux Falls Regional Sanitary Landfill
26750 464th Avenue
Hartford, SD 57033

Summer Hours of Operation
