Addendum No. 1

Request for Proposals No. 21-0118

**Professional Engineering and Architectural Design Services to Public Works Light, Power, and Traffic
for New Administration and Operations Building**

City is updating the following requirements:

Section 3.02, Task Series 3, subsection item #3 currently reads:

Prepare proposed project parcel wellfield development plan, well design, bidding, and construction schedule for the project team's consideration

Has been revised to the following:

Prepare project development plan for the proposed parcel of land that the future Light, Power and Traffic campus will be located on including the bidding and construction schedule for the project team's consideration.
