New Business

1. Item No. 1: Appeal No. 1-2011. Rose Grant presented the Electrical Board members the manufacturer's instructions and photocopies of pictures of miscellaneous areas of the floors before the tile went down. She requested she be allowed to use an Ohm reading in lieu of a rough-in inspection and would install GFCI thermostats in the two areas that do not require GFCI protection. Larry Kippes stated that he hadn't seen any of the in-floor heat mats or the wiring to the thermostats and without a rough-in inspection, he wouldn't know if it was installed properly. After completing discussion among the applicant, Board members, and staff, a motion was made by Shannon Globke and a second was made by Dave Thompson to deny Appeal 1-2011. Yeses, 4. Noes, 0.
