

Sioux Falls Year-Round Lawn Watering Schedule

IN AN EFFORT TO utilize our water resources in an efficient manner, the City of Sioux Falls has established a year-round lawn watering schedule. As of this mailing, the City of Sioux Falls is in Stage 1 of the Lawn Watering Schedule.

All municipal water users must follow the lawn watering program below. Stage 1 is as follows:

LAWN WATERING for all residential, commercial, industrial, and City facilities is allowed with the following exceptions:

- Watering lawns is not allowed during the hours of 12 noon to 5 p.m.
- Users with even-numbered addresses may water lawns on even-numbered calendar dates, and users with odd-numbered addresses may water lawns on odd-numbered calendar dates.

If conditions warrant, the lawn watering schedule is subject to change. Details of changes to Stage 2 or Stage 3 will be released through the local media and at www.siouxfalls.org.

WASTING WATER IS NEVER ALLOWED (for example, leaving the hose running, misaligned or broken sprinklers).

PERMITS FOR NEWLY INSTALLED LAWNS will be allowed. Contact Public Works at 367-8600 for permit information.

HAND WATERING OF VEGETATION such as shrubbery, trees, ground covers, plants, vines, gardens, vegetables, and flowers is permitted any time of day if the water is applied by a hose that does not leak and is equipped with a hand-held nozzle that automatically shuts off when released.
